RE: DOGM Amendment Deficiencies  
Sunnyside Cogeneration Associates (SCA)  
Permit #C/007/035, Task ID #2223

Ms. Grubaugh-Littig:

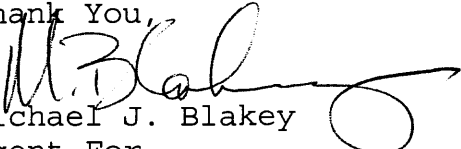

This letter is pertaining to SCA's Excess Spoil Disposal Area #2 Design Revision Amendment, task ID #2223, dated April 18, 2005. The Division of Oil, Gas and Mining responded with a letter, dated July 26, 2005, listing several deficiencies. SCA was asked to respond to these deficiencies by October 18, 2005.

SCA was unable to respond to these deficiencies, by October 18, 2005, due to the extended time it took to resolve the bond renewal issues. There were four deficiencies listed that were associated with bond renewal.

Due to this circumstance SCA would like to ask the Division for an extension into 2006.

Should you have any questions, please contact myself or Rusty Netz at (435) 888-4476.

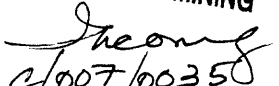

Thank You
